WINCHESTER

Chamber of Commerce

The Winchester Chamber of Commerce is dedicated to promoting and serving businesses and fostering a strong economic climate all consistent and in harmony with the character and culture of Winchester.

The Chamber supports its Shop Locally initiative through many activities including the Gift of Winchester, Experience Winchester Welcome Bags and partnering with several organizations to encourage residents to shop locally. We continue to have one of the most active and successful women's networking groups in the area.

For many years the Winchester Chamber of Commerce has made it a priority to help raise money for the beautification projects. It has spearheaded all of the fundraising for the holiday lighting and hanging baskets which makes the entire center area an attractive and inviting place to shop and relax with friends and family. In addition, we provided new benches that were placed in the downtown area.

The Winchester Chamber represents large and small businesses, retail and service organizations, dining establishments and many non-profit organizations. We have a monthly newsletter that is distributed electronically to all members. A new technology initiative is beginning this fall to improve all members ability to access chamber events and advertise their own happenings. Our chamber works 365 days a year to help all of our businesses.

I love what I do!
Yes, I'm one of those people who back the truck out of the driveway early each morning, whistling.

I hung the Allen Plumbing shingle twenty-something years ago, as a twenty-something myself.

A Master Plumber, I have always loved the challenge of diagnosing problems, visualizing the optimal solution, and making it happen.

As a business owner, however, I understand that technical precision is just one part of our job. Reliability, integrity, respect, and communication are equally as important—and sometimes more so—to ensuring a customer's satisfaction.

Whether it's a smaller job such as unclogging a drain or replacing a toilet, or a larger one such as installing an energy efficient heating system, our customers deserve us to be there when they need us to be.

We are the proud recipient of Angie's List's Super Service Award for the past five years; members—and I a past president—of the MA Plumbing, Heating & Cooling Contractors Association; an authorized Rinnai dealer; and are fully licensed and insured.

We are happy to provide referrals and look forward to being here to serve our customers for many more years.

Ballet Arts Centre's program is based on the commitment to provide the highest quality of instruction from an exceptional faculty, trained not only as dancers, but as caring educators able to address the needs of each individual student. Our aim is to develop well-rounded dancers by stressing the study of ballet—the foundation of

Whether chosen simply as a hobby or as a serious discipline, BAC is dedicated to creating an atmosphere which fosters creativity, discipline, and positive influence, all of which can be carried into many other aspects of a student's life. Thank You Winchester! Black Horse Tavern is now entering its 6th successful year and we couldn't do it without your support!

The Black Horse Tavern was a lifelong family dream that became a reality. My husband Jimmy and I spent countless hours of planning and work, from the beginning stages of finding the right location, to the year-long process of designing and building the space, and then to the opening in August 2010. We gave it everything we had, and fortunately the townspeople have supported us. We are excited every day to share our foods, to see everybody enjoying friends, and to have created what people tell us is "a place

that was desperately needed in our town".

Our Main Menu is varied and offers fresh foods that appeal to many different palates, from our half-pound Angus Burgers to our fresh fish delivered daily from Gloucester. The majority of our recipes are family favorites, with many coming from Kim's mom, Linda (whom you will find in the kitchen on most days).

One of our favorite memories continues to be that snowy winter day, with the fireplace glowing, when we had a family of snowshoers walk down for an early dinner and leave their snowshoes leaning against the lit tree outside. It seemed so magical then, and still does today.

CARE, INC.**
Private Home Health Care

As a lifelong Winchester resident, I have been able to give back in an amazingly fulfilling way for the last 27 years. The devoted parents who drove us, as children, to skating parties, chaperoned our dances, and watched and guided us growing up, now need us to care for them. It has been an honor for Clark Care, Inc. to provide private home health care to so many of the parents of the Baby Boomers in Winchester and surrounding communities.

As a family owned agency since 1988, we have seen many things change over the past 27 years, BUT one thing that has not is my

attention to ALL details of care. I LOVE what I do, and I share the love and enthusiasm with my caregivers and clients.

Our clients' needs are evaluated by a registered nurse. Every effort is made to make the best possible client/caregiver match. We recognize the importance of the personal dynamic between client and caregiver and its role in health and happiness. CCI is extremely selective and provides only the very best caregivers. We are proud to say, "they are part of our team". A support staff is available 24/7, including an RN.

Inspire, create, innovate, and apply are all words that Lanie Higgins uses to describe the purpose of teaching science. The goal is to engage as many students as possible by having them discover that science is everywhere, and it is truly an exciting subject to study. The lack of scientists and engineers prompted Lanie Higgins to develop Cool Science Club based on STEM (Science, Technology, Engineering, and Math) for the Winchester Public Schools.

Lanie and her experienced staff of passionate teachers have been together over eight years to develop a two-week summer program for

budding young scientists. The small student-to-teacher ratio is often described as a family-like atmosphere where children feel safe to learn and explore new concepts. Brothers and sisters attend each year, and CSC alumni return to become our enthusiastic youth counselors. Ducks In A Row is a professional organizing service for residential and small business clients. Anne Lucas established Ducks In A Row in 2000. Anne is the mother of three sons, Brendan, Patrick, and Corey, who are represented by the three small ducks in her logo. Anne has a team of "ducks" who work with her. They have worked with clients helping them through many life situations: death, divorce, blending families, setting up for in-laws, hoarding, downsizing, the routine craziness of life, and more. Their job is to make the overwhelming task of cleaning out the overstuffed garage, attic, basement, or closet more manageable. They sort through items with you and help you decide what

you really need to keep. They take away anything that you don't want.

Discarded items are donated/recycled locally in Winchester when possible. Some of the recipients are the Recreation Department, Jenks Center, School Department, Library, Music School, Winchester Hospital, and Winchester DPW. They also take things to The Mission of Deeds and Goodwill. They get a tax deductible receipt. They put items into the hands of those in need.

OUR CUSTOMERS BUILT OUR BUSINESS

In 1982 customers made clear to Fresh Touch owners that you brought Fresh Touch your favorite things and expected them back in perfect condition. That became the essence of our business plan. Do the absolute best on every garment brought to us. The resulting word-of-mouth advertising has made us the largest and best cleaner in the area. It also caused us to be named "Best of Boston" and has kept us as the cleaner for Four Seasons Hotel Boston for the last quarter century, the only Five Diamond Five Star hotel in New England.

OUR EMPLOYEES MAKE THE DIFFERENCE

Our General Manager and Dry Cleaner have been working and learning with us since the mid-80s, and the majority of our employees have been with us since the 90s. They are all conscientious people with excellent eyesight and the time, the will, and the skill to get the job done right. Once you meet them you will recognize the difference.

Kidstock! Theater is dedicated to a unique approach in education through the performing arts, focusing on the process and teamwork involved in bringing any story idea to life onstage with the support and guidance of a professional staff and access to the highest level of resources in a creative and noncompetitive environment.

We believe every child is a natural storyteller, with aspirations and ability to perform onstage. Kidstock! provides a safe environment to explore new challenges alongside peers and feel supported by teachers while being surrounded by the resources of a professional theater. Every student is a "star" in our productions and we pride ourselves on offering unique curriculum experiences that are as engaging for a "seasoned theater veteran" as they are for a newcomer to the world of the stage.

Kidstock! offers seasonal after-school classes, vacation week programs, summer stage productions, creative theater birthday parties, family friendly public performances, and touring educational show events for schools, libraries, and organizations.

Kidstock! was founded in 1992 by Winchester resident Brian Milauskas, an educator, artist, and theater professional raised in Winchester. His staff of actor-educators are each unique, talented, and qualified artists with individual experiences and specializations in arts and education.

The Kids NextDoor, an educational artistic collaboration between the professional nonprofit NextDoor Theater and Kidstock!, offers auditions for fully staged public productions throughout the year for actors age 7-15. Visit www.nextdoortheater.org for details and/or ticket sales.

David Fonseca has been crazy about computers since he discovered the computer lab at his rural high school in Vermont. He started programming then, and kept at it through college and during a 20-year corporate career.

After the Internet business bubble burst in 2001, David re-invented himself and started a new career in computers: tech support for local small business and home users. In reality, this new business found him, as he had 40 customers before printing business cards.

He named his company "Local Hero" because it is ironic, and captures his business aspirations: it is funny, and personal. Dave enjoys being a

"Hero" (hah!) to his customers, for solving even their smallest annoyances.

He enjoys camping trips with his wife and two sons. (He finds it awkward writing about himself in the third person.) He volunteers at Mission of Deeds... if MOD picks up your donation on a Wednesday morning, chances are David will be driving the truck.

If your gizmo connects to the Internet, Dave will help you to get it working right. Smart phone, Windows PC or Mac—from virus removal and data recovery to advice on what to buy and installation of new equipment and software—let Dave come and help you.

SafeLawns
& Landscapes

While traditional fertilizers make your grass look green, they actually damage your soil's natural biological activity. The green color will fool you, but soon grass growing in soil without bioactivity will hunger for nutrients, and be vulnerable to attack by insects and diseases. The traditional remedy is to apply more synthetic fertilizers and pesticides. Before you know it your lawn is hooked on a chemical diet, and no longer is able to grow on its own.

Originating in 1980, SafeLawns has been a leader in full service organic lawn care. We have the extensive training, experience, and quality organic products to maximize your lawn's two interdependent living systems: grass and soil.

Organic lawns are not just better for your children, pets, and planet, the investment to go organic pays for itself year after year by providing a naturally greener lawn that requires less maintenance and watering. SafeLawns' services include: Soil Testing and Analysis, Analysis-Based, SafeTea™ Liquid Compost Organic Soil Health Booster, Organic Fertilizer Application, Natural Grub Control, Natural Disease and Insect Management, Organic Solutions™ Weed Management, as well as non-toxic prevention of winter moth and woolly adelgid.

Tina and I started this in November 2007. I had been working for a local oriental rug company when Tina approached me with this new concept for wood floor refinishing. The #1 reason that people put off wood floor refinishing is the dust, the odor, and the multiple days it takes. SandFree refinishing solved all of those problems.

At Shield System, we specialize in car washing and automobile detailing. Shield System opened its doors at its first location in 1968. We are one of the longest operating car washes in Massachusetts. We continue to be a locally owned and family operated business, as we are now in our second generation of ownership. We were founded on the principal that cleaning cars should be quick, convenient, and reasonably priced. Providing our customers with the highest quality of service available is very important to us.

Cleaning cars is our passion. We individually prepare each vehicle before the wash process, paying close attention to your car care needs. The

equipment we use at our Car Washes is safe and effective at cleaning all automobile finishes. We guarantee your satisfaction with every service.

Shield System Car Wash has actively supported the Winchester community for many years. We are both Winchester residents and have collaborated with local youth groups to foster fundraising activities and supported local school events. We've been a trustworthy member of our local community of businesses. We look forward to continuing servicing all your car care needs.

HOURS OF OPERATION:

Morning, afternoon, and extended day options for children ages 2.1 to 5 years old. See our website for class schedule at www.winchestercoop.org.

The goal at the Winchester Cooperative Nursery School (WCNS) is to give children a positive first impression of education. Its teachers believe that children learn through play. Daily programs offer activities like painting, singing, climbing, building, story time, snack time, and dress-up.

WCNS has been an integral part of the education of Winchester children since it was founded in 1968. It is a parent-run, non-denominational school for children ages 2.1 to 5 years old dedicated to providing each child with a positive and enriching first school experience. Parents actively participate in educational and operational components of the school by parent-helping in the classrooms and serving on school-wide committees and on the

Board of Trustees.

The WCNS curriculum is play-based and child-centered. Children are provided the materials and the space and given the freedom to explore. They acquire knowledge while sharing in the discovery of their physical and social worlds.

WCNS offers toddler, preschool, and Pre-K classes. The program is complemented by a music and movement component, a staff literacy consultant, and an artist-in-residency program spearheaded in 2011.

The Winchester Cooperative Nursery School is located in the Unitarian Church of Winchester at 478 Main Street.
